Happy New Year 2019!

It is with great excitement and enthusiasm that we all start a new year. It’s a time of renewal and rejuvenation. A time of looking ahead with wide-eyed child anticipation of what will be and a time of looking back on what was.

Looking back at 2018, the ADA and MBDS were very busy on your behalf and on behalf of the public we serve. One particular noteworthy item from the ADA, on December 11, 2018, President Trump signed into law The Action for Dental Health Act. This legislation had been in the works for several years, and, with the push and persistence of the ADA, is now law. By passing the bill, the Action for Dental Health Act will allow organizations to qualify for oral health grants to support activities that improve oral health education and dental disease prevention. It will also enable groups to develop and expand outreach programs that facilitate establishing dental homes for children and adults, including the elderly, blind and disabled.

Locally, MBDS had a very busy 2018 with lectures on 3D printing, implants in the esthetic zone, digital dentistry work flows, diagnosis and treatment of sleep apnea, update on the oral-systemic link, pharmacological interactions important to dentistry, a visit to the zoo for new dentists and their families, 2 shredding events, and an Escape the Room adventure. Whew! That’s a ton of activities for one organization! Well, after all, we are one of the largest and most active dental societies in Pennsylvania.

Looking ahead at 2019, we have a full slate of presentations and activities that we know you will want to take part in. Lectures on “Advances in Dental Pharmacotherapy”, “Minimal Preparation = Maximum Longevity”, and “Optimized Bonding and Material Selection for Implant Restorations” will all help you improve your clinical skills. Whether you own your own dental practice or are hoping to one day, we want to help improve your business skills. The Montgomery Bucks Dental Society Business Success Symposium will launch on February 28 at 6pm. Our first presenter of this 6 part series, Mr. William Gowie, CPA, will discuss fundamentals of business accounting including what is a P&L, what a balance sheet is, and what expenses should and should not be paid through your business. This is a must attend for business owners and anyone interested in buying a dental practice. The other business topics in this series include Human Resources (hiring, firing, PTO, embezzlement), Legal (wills, power of attorney, trusts, employment contracts), Financial Planning and Insurance (IRA, 401k, disability, life insurance), Finances (business loans, school debt, personal finances),

Distinguished Speaker Series
Monday, February 25, 2019
Normandy Farms
Blue Bell, PA

Julián Conejo, DDS, M.Sc.
Preseats
Optimized Bonding and Material Selection for Implant Restorations with Chairside CAD/CAM Technology.

Bonding optimization and proper material selection are crucial for the long-term success of implant-supported restorations. Scientific studies and step-by-step clinical protocols will be described in this lecture with the objective of improving success rates for single and multi-unit CAD/CAM restorations.

Julián obtained his DDS from the Universidad Latina, Costa Rica in 2005, and then completed training as a prosthodontist at Universidad Intercontinental, Mexico in 2008. He worked as a Professor at the Prosthodontics Department, Universidad Latina and actually works as Clinical CAD/CAM Director at the Department of Preventive and Restorative Sciences, University of Pennsylvania, Philadelphia, USA. He conducts research on CAD/CAM technology, prosthodontics and implant dentistry. Julián was awarded the Young Clinician Award at the Nobel Biocare World Tour Mexico City, 2008 and the ICP Research Fellowship in Dental Restorative Materials, 2016.

Cocktails - 6 PM • Dinner - 7 PM • Meeting - 8 PM
See page 15 for Registration form.
MARK YOUR CALENDAR
2018-2019

Executive Council Meetings: (held at Blue Bell Country Club Clubhouse)
January 10, 2019

Dinner Meetings: Cocktail hour beginning at 6:00 & dinner at 7:00
All dinner meetings are held at Normandy Farms in Blue Bell

Monday, February 25, 2019 – Dr. Julian Conejo
Optimizing Bonding & Material Selection for Implant Restorations with
Chairside CAD/CAM Technology

Monday, March 25, 2019 – Dr. Jay Laudenbach
Full Arch Immediate Loading of Dental Implants: A Streamlined Workflow
to Improve Case Acceptance and Clinical Success

Thursday, May 16, 2019 – President’s Banquet at Normandy Farms

Friday Full Day CE. Meetings: Friday courses run 9:00 to 3:30
All CE Events are held at Blue Bell Country Club

January 18, 2019 – Karen Baker
Advances in Dental Pharmacotherapy

April 12, 2019 – Dr. Michael Malone
Minimal Preparation=Maximum Longevity

MBDS is looking for members to get involved in our committees, as well as, online surveys and focus groups. It's a great way to get involved without a significant commitment of your time.

If interested, contact: mbdsdr@comcast.net

We look forward to welcoming you!

NEW BUSINESS SUCCESS SYMPOSIUM
Take Control of Your Financial Future

Montgomery Bucks Dental Society is proud to present the first annual Business Success Symposium titled, “Take Control of Your Financial Future.” This is an opportunity for both members and non-members to take advantage of the business pearls of leaders in the fields finance, accounting, practice management, HR, business planning, investing, and law. Over 18 hours of continuum designed for both recent graduates and experienced clinicians will be provided, with an unprecedented opportunity to network with experts throughout the business community, as well as, society members! Begin with the Business Success Symposium and build the practice you have always wanted with the following speakers:

Come hungry for phenomenal information and refreshments!

Where: Bernies, 58 South York Road, Hatboro, PA 19040
When: 6-9 PM – Happy hour, followed by the speaker’s presentation and Q&A session
Cost: MBDS Member Pricing: $30 per session/$150 for 6,
ADA Member Pricing: $50 per session/$250 for 6,
Non-Member Pricing: $100 per session/$500 for 6.

Contact mbdsdr@comcast.net to register or for more information.
Cash balance plans are technically defined benefit plans that share some key characteristics with defined contribution plans. IRS regulations finalized in 2010 and 2014 clarified some legal issues and made these plans more flexible and appealing to employers. As a result, there was a 152% increase in new cash balance plans between 2010 and 2015.1 These hybrid plans have generous contribution limits that increase with age, and are often stacked on top of a 401(k) and/or profit-sharing plan. This might allow partners in professional seNice firms and other high-income business owners to maximize or catch up on retirement savings and reduce their taxable incomes.

In 2017, a 65-year-old could save as much as $251,000 in a cash balance plan, while a 55-year old could save $184,000 on a tax-deferred basis (until the account reaches a maximum accumulation of $2.5 million).2

**Assuming the Risk**

A cash balance plan is also a powerful tool for employee recruitment and retention. As with other defined benefit plans, employees are promised a specified retirement benefit, and the employer is responsible for funding the plan and selecting investments. However, each participant has an individual account with a “cash balance” for record-keeping purposes, and the vested account value is portable, which means it can be rolled over to another employer plan or to an IRA.

But unlike a 401(k), the participant’s cash balance when benefit payments begin can never be less than the sum of the contributions made to the participant’s account, even if plan investments result in negative earnings for a particular period. This means the employer bears all the financial risk.

**Cash Balance Plans by Business Type**

</tr>
</tbody>
</table>

**Funding the Plan**

Each year, the employer makes two contributions to the cash balance plan for each employee. The first is a pay credit, which is either a fixed amount or a percentage of annual compensation. The second contribution is a fixed or variable interest credit rate (ICR). The ICR can be set to equal the actual rate of return of the portfolio, if certain diversification requirements are met, which reduces the employer’s investment risk and the possibility of having an underfunded plan due to market volatility.

**Weighing the Costs**

The amount that the employer must contribute to the plan each year is actuarially determined based on plan design and worker demographics. Typically, IRS rules require owners to contribute 5% to 8% of pay to non-highly compensated employees in order to make larger tax-deferred contributions for themselves.3

Businesses may take a significant tax deduction for employee contributions, so current-year tax savings may offset some of these costs. Still, a cash balance plan is typically more cost-effective if you are a sole proprietor or the owner of a small firm with just a few employees.

• (PM) Dr. I. Stephen Brown - The Pinhole Surgical Technique
• (PM) Dr. Nipul Tanna - Advances in Perio-Ortho Treatment
**COMPLYING WITH CONTINUING EDUCATION AND TRAINING REQUIREMENTS**

*PDA’s guide will help you stay compliant with Pennsylvania laws and regulations.*

Pennsylvania dental licenses renew on April 1 of each odd-numbered year. During the two-year period prior to renewal (April 1 of an odd-numbered year to March 31 of an odd-numbered year), the State Board of Dentistry requires the following minimum number of credits:

- 30 hours for dentists
- 15 hours (as part of the above 30-hour requirement) for anesthesia permit holders
- 20 hours for dental hygienists
- 5 hours (as part of the above 20-hour requirement) for public health dental hygienists in public health related courses.
- 3 hours (as part of the above 20-hour requirement) for dental hygienists with a local anesthesia permit.
- 10 hours for EFDAs

CE credit hours must be completed in subject areas directly related to the maintenance of the clinical competence of a dentist, dental hygienist or expanded function dental assistant (EFDA).

You should also be aware that other governmental agencies, such as the Department of Environmental Protection, require additional CE and/or training, but not as a condition of license renewal.

**Minimum 50% of hours must be lecture.**

**OTHER STATE BOARD OF DENTISTRY REQUIREMENTS:**

<table>
<thead>
<tr>
<th>SUBJECT AREA</th>
<th>NUMBER OF CREDIT HOURS</th>
<th>PURPOSE/OPTIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Anesthesia</td>
<td>Dentists with an unrestricted or restricted permit I are required to have 15 of their 30 hours in anesthesia related courses.</td>
<td>Dentists with a restricted permit II do not need to fulfill any CE requirement in order to maintain the permit. Dentists who are non-permit holders, but use the services of an anesthesia provider with an unrestricted or restricted permit I must have 5 hours of CE, which can be applied to the 30 hours required.</td>
</tr>
<tr>
<td>CPR</td>
<td>CPR is a requirement separate from the CE required for re-licensure and cannot be counted toward the required hours. PDA suggests the American Heart Association’s “Healthcare Provider” course or a course offering a certification card that states “Infant, Child and Adult CPR.”</td>
<td>Licensees and certificate holders (dentists, hygienists and EFDAs) MUST obtain current certification in infant, child, and adult cardiopulmonary resuscitation.</td>
</tr>
<tr>
<td>ACLS/PALS/BLS</td>
<td>Unrestricted and permit I holders are required to maintain certification in ACLS (if treating adults) and PALS (if treating children under age 18). Appropriately trained auxiliary personnel working directly with the permit holder must maintain certification in BLS.</td>
<td></td>
</tr>
</tbody>
</table>
### OTHER STATUTES OR REGULATIONS:

<table>
<thead>
<tr>
<th>SUBJECT AREA</th>
<th>NUMBER OF CREDIT HOURS</th>
<th>PURPOSE/OPTIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Child Abuse</td>
<td>New applicants for licensure must obtain 3 hours of training. Current licensees must obtain 2 hours of child abuse recognition and reporting CE biennially. All courses must be taken with an approved provider.</td>
<td>Fulfills Department of Human Services’ Act 31 mandatory CE requirements for dentists, hygienists and EFDAs. PDA’s CE course fulfills the two-hour requirement for relicensure or recertification.</td>
</tr>
<tr>
<td>Opioids</td>
<td>Current licensees who have or use a DEA number must obtain 2 hours of training in pain management, identification of addiction or the practices of prescribing or dispensing of opioids. New licensees have 12-months from the date of initial licensure to obtain 2 hours of training in pain management or identification of addiction AND 2 hours in the practices of prescribing or dispensing of opioids. All courses must be taken with an approved provider.</td>
<td>Fulfills Act 124 mandatory CE requirements for dentists who have a DEA number or use a DEA number of another person or entity (as permitted by law). Check <a href="http://www.padental.org">www.padental.org</a> for updates on this requirement.</td>
</tr>
<tr>
<td>Radiology</td>
<td>Regulations offer no minimum on how many, or how often, CE credits must be obtained. However, in order to demonstrate compliance with the law, individuals must complete CE that covers all required subject areas (radiation safety, biological effects, quality assurance and quality control). Requirement separate from relicensure. Department of Environmental Protection recommends that individuals obtain 2 contact hours (classroom setting), or 4 hours, of CE every 4 years to ensure full compliance with the law.</td>
<td>Fulfills Department of Environmental Protection regulations for qualified dental personnel. Radiology requirements apply to any individual who operates an X-ray machine. PDA created an online CE course that is worth 2 credits for those who successfully complete a short quiz after reviewing the online course. The Department of Environmental Protection does find this course acceptable to fulfill the CE requirement.</td>
</tr>
<tr>
<td>Infection Control</td>
<td>All licensees and certificate holders (dentists, hygienists and EFDAs) must adhere to current federal Center for Disease Control guidelines.</td>
<td>CDC guidelines address basic hygiene, educating staff, bloodborne pathogens, sterilization, and environmental and infection control. Access the CDC guidelines at: <a href="http://www.cdc.gov/oralhealth/infectioncontrol/index.htm">http://www.cdc.gov/oralhealth/infectioncontrol/index.htm</a>. Take PDA’s webinar and online quiz for CE credit available at <a href="http://www.padental.org/infectioncontrol">www.padental.org/infectioncontrol</a>.</td>
</tr>
</tbody>

Seminar #3, Friday, January 18, 2019
Karen Baker - “Advances in Dental Pharmacotherapy: How to Maximize Success While Limiting Risk in Everyday Practice”

About this Course:
The range of drug therapy options available to dental practitioners has greatly expanded over the past ten years. This expansion has opened the door to unprecedented therapeutic successes as well as disastrous drug misadventures. This course will update the dental team on recent developments in dental pharmacotherapy while providing strategies for prescribing to ensure therapeutic success. Drug therapy and alternative medicine reference sources will be listed and critiqued as to usefulness in daily practice. Clinically relevant information about effectiveness, adverse effects, patient specific drug selection criteria, dosing, and cost will be presented for therapeutic agents commonly used in dentistry. Systemic antibiotics, anxiolytics, analgesics and mucosal disease agents will be evaluated and discussed. Special attention will be given to certain controversial areas including antibiotic premedication of joint replacement patients and office management of dental anxiety. Potentially dangerous drug and supplement interactions important in clinical dentistry will be listed and reviewed with emphasis on avoidance and patient management strategies. Extensive and very current handouts will be provided to maximize the chairside value of this fast-paced and entertaining course.

Course Objectives:
• Buy and easily use the best drug and alternative medicine references for dental practice
• Choose the most cost effective antibiotic or anxiolytic for a specific patient
• Prescribe antibiotic premedication for certain patients with a variety of implants and conditions based on screening criteria and current evidence
• Prescribe innovative topical and systemic therapies for both inflammatory and infectious mucositis patients
• Choose an analgesic NSAID regimen based on relative adverse effects, drug interactions, efficacy for pain vs inflammation
• Enhance the analgesic effects of opioid analgesics while minimizing their adverse effects and abuse potential

Karen Baker has been on the Dental College faculty at the University of Iowa for 37 years and occupies a unique role in dental practice and education. She is a clinical pharmacist with a Master’s degree in clinical pharmacology and therapeutics and is focused on patient-specific dental drug therapy. She has given over 1000 invited programs nationally and internationally and holds memberships in many dental and clinical pharmacology and therapeutics organizations. Her dental education-based pharmacy and drug therapy consultation center is the only one in the United States. She has authored more than 50 articles and abstracts and lectures extensively in pre-doctoral and graduate courses at the University of Iowa.

Seminar #4, Friday, April 12, 2019
Dr. Mike Malone - “Minimal Preparation = Maximum Longevity”

About this Course:
Dr. Mike Malone has combined the occlusion and restorative teachings of L.D Pankey, Pete Dawson, John Kois, Frank Spear, etc., with a passion for learning from the best and brightest in cosmetic dentistry. He has developed systems for combining predictable restorative techniques with ideal cosmetic procedures. The course will cover smile design and ideal provisional fabrication and review preparation details for all-ceramic cosmetic restorations that will give life-like, strong, and long-lasting results.

Course Objectives:
• Complete the preparation phase faster and with more control
• Manage soft tissue and take ideal impressions every time
• Use principles of smile design to develop an ideal diagnostic waxup
• Transfer the information in the diagnostic waxup into a completed provisional that rivals the final restoration
• Complete and seat finished restorations with predictability
• Understand the principles of adhesion and how to select the ideal cement based on indication, prep design and type of restorative material with hands-on instruction on techniques using models with several all-ceramic restorations
• Learn step by step procedures for delivering all-ceramic restorations with confidence and success

Dr. Mike Malone graduated with a Master’s degree from Louisiana Tech University and received his dental degree from the LSU School of Dentistry in 1976. He then served three years in the Air Force Dental Corps before returning to Louisiana to establish a private general practice. Dr. Malone’s commitment to excellence in restorative and cosmetic dentistry started early with extensive continuing education with his primary mentors: L. D. Pankey, Pete Dawson, Alvin Fillastre, and Mike Schuster. He received a fellowship in the Academy of General Dentistry in 1988 and is a member of the ADA, American Equilibration Society, the Pierre Fauchard Academy, and the Pankey Alumni Association. He has been a member of the American Academy of Cosmetic Dentistry since 1988, and was accredited in 1992. In 1995, Dr. Malone was asked to become a member of the Accreditation Board of Examiners of the American Academy of Cosmetic Dentistry, and went on to become an Appeals Examiner for the A.B.O.E. After serving six years on the Board of Directors of the AACD, Dr. Malone served as President for 2003-04. He is also on the staff of LSU as an Assistant Clinical Professor in Prosthodontics. He is a published author in leading journals, member of The Catapult Group and speaks internationally on cosmetic and restorative dentistry. Dr. Malone maintains a fulltime dental practice limited to cosmetic and reconstructive dentistry in Lafayette, LA.
