As we settle into the fall season, we begin to notice all these changes around us. The weather is getting colder, the leaves are changing color, and let's not forget about the beginning of football season!

Speaking of change, are you aware of the new state law requiring the use of electronic prescriptions? The Pennsylvania General Assembly passed HB 353 (now Act 96 of 2018), which requires health care providers to electronically prescribe all Schedule II-V controlled substances, except when they are directly dispensed or administered by the provider (other than pharmacists). **This law goes into effect starting October 24th, 2019.** It's also important to note that providers who violate the Act are subject to the financial penalties. Below are some vendors that provide electronic prescriptions:

## Financial Planning Information

### Settling an Estate

Being named as the executor of a family member's estate is generally an honor. It means that person has been chosen to handle the financial affairs of the deceased individual and is trusted to help carry out his or her wishes.

Settling an estate, however, can be a difficult and time-consuming job that could take several months to more than a year to complete. Each state has specific laws detailing an executor's responsibilities and timetables for the performance of certain duties.

If you are asked to serve as an executor, you may want to do some research regarding the legal requirements, the complexity of the particular estate, and the potential time commitment. You should also consider seeking the counsel of experienced legal and tax advisors.

**The executor has a fiduciary duty -that is, a heightened responsibility to be honest, impartial, and financially responsible.**

#### Documents and Details

A thoughtfully crafted estate plan with up-to-date documents tends to make the job easier for whomever fills this important position. If the deceased created a letter of instruction, it should include much of the information needed to close out an estate, such as a list of documents and their locations, contacts for legal and financial professionals, a list of bills and creditors, login information for important online sites, and final wishes for burial or cremation and funeral or memorial services.

An executor is responsible for communicating with financial institutions, beneficiaries, government agencies, employers, and service providers. You may be asked for a copy of the will or court-certified documentation that proves you are authorized to conduct business on behalf of the estate. Here are some of the specific duties that often fall on the executor.

Arrange for funeral and burial costs to be paid from the estate. Collect multiple copies of the death certificate from the funeral home or coroner. They may be needed to fulfill various official obligations, such as presenting the will to the court for probate, claiming life insurance proceeds, reporting the death to government agencies, and transferring ownership of financial accounts or property to the beneficiaries.

Notify agencies such as Social Security and the Veterans Administration as soon as possible. Federal benefits received after the date of death must be returned. You should also file a final income tax return with the IRS, as well as estate and gift tax returns (if applicable).

Protect assets while the estate is being closed out. This might involve tasks such as securing a vacant property; paying the mortgage, utility, and maintenance costs; changing the name of the insured on home and auto policies to the estate; and tracking investments.

Inventory, appraise, and liquidate valuable property. You may need to sort through a lifetime's worth of personal belongings and list a home for sale.

Pay any debts or taxes. Medical bills, credit card debt, and taxes due should be paid out of the estate. The executor and/or heirs are not personally responsible for the debts of the deceased that exceed the value of the estate.

Distribute remaining assets according to the estate documents. Trust assets can typically be disbursed right away and without court approval. With a will, you typically must wait until the end of the probate process.

The executor has a fiduciary duty - that is, a heightened responsibility to be honest, impartial, and financially responsible. This means you could be held liable if estate funds are mismanaged and the beneficiaries suffer losses.

If for any reason you are not willing or able to perform the executor's duties, you have a right to refuse the position. If no alternate is named in the will, an administrator will be appointed by the courts.

### Seminar #2, Friday, November 15, 2019

Level: For Dentists & Hygiene Staff

Karen Davis, RDH – AM: *Executing the Ultimate Doctor-Patient Hygiene Exam*

PM: *Conquering Disease with Antioxidant Arsenal, Anti-Inflammatory Diets & Adequate Sleep*

#### ABOUT THIS AM COURSE:

##### EXECUTING THE ULTIMATE DOCTOR-PATIENT HYGIENE EXAM

Learn how to prevent the “I’ll give you a call...” response from patients following treatment recommendations in the dental hygiene appointment. Capitalize on that magical 5 to 7 minute exam, using continuity

between the dental hygienist and dentist, without running everyone’s schedules behind. Strategic screenings provide the pathway for comprehensive diagnosis and treatment enrollment. Learn the art of prioritization, and the value of a “triangle of communication” between the dentist, dental hygienist and the patient.

#### COURSE OBJECTIVES:

- Distinguish screenings that save lives and save smiles
- Recognize strategies to overcome common objections to treatment recommendations
- Appraise technologies to work smarter, not harder

#### ABOUT THIS PM COURSE:

##### CONQUERING DISEASE WITH ANTIOXIDANT ARSENALS, ANTI-INFLAMMATORY DIETS & ADEQUATE SLEEP

Pro-inflammatory diets, over-stressed lives, chronic inflammation, and lack of adequate sleep have strong correlations to adverse health outcomes. Explore strategies to prevent disease and reduce inflammation-using food as medicine. Explore how sleep disordered breathing compounds disease development. Appreciate the role of antioxidants in lowering inflammation. Today’s dental professional can help fill a growing gap between disease diagnosis and various treatments by proactively guiding patients toward preventive strategies for health & wellness..

#### COURSE OBJECTIVES:

- Determine which foods promote and prevent diseases
- Appraise the role of antioxidants & adequate sleep in sustaining health
- Identify products and technologies that help reduce inflammation

**KAREN DAVIS** is founder of her own continuing education company, Cutting Edge Concepts, and currently practices dental hygiene in Dallas, Texas. Her background as a clinician, consultant, and speaker enable her to identify with challenges facing dentistry and offer innovative solutions vital to success in today’s marketplace. *Dentistry Today* has recognized Karen as a “Leader in Continuing Education” since 2006.

**Seminar #4, Friday, April 3, 2020**

Level: For Entire Team

Christina M. LaJoie – *Current Concepts of Sleep Disordered Breathing***ABOUT THIS COURSE:**

Sleep disordered breathing is one of the hottest topics in dentistry today, and oral appliances used to treat sleep disordered breathing have evolved significantly over the past 25 years. From early boil and bites, to single position, to titratable appliances; including the Telescopic Sleep Herbst® and the Klearway™, to the D-SAD™ and Medley appliances. The evolution towards adjustability has allowed doctors to start therapy with their patients in a more comfortable position and gradually move to an optimal therapeutic position. Patient comfort is a vital element of appliance therapy as comfort leads to improved patient compliance.

However, achieving proper bite registration is critical to successful sleep appliance therapy. A hands-on bite registration demonstration using the George Gauge™ will be conducted and information on how to select the right appliance to address your patient’s unique dental conditions will be presented. The introduction of new technology for home monitoring, such as the Nonin WristOx2® Pulse Oximeter and the Medibyte® Lite, has allowed doctors to evaluate appliance effectiveness quantitatively and share data more effectively with physicians co-managing the case. A discussion of home monitors and their application will conclude the course.

**COURSE OBJECTIVES:**

- Understand the evolution of oral appliances for sleep disordered breathing
- Learn hands-on techniques for bite registration using the George Gauge™
- Learn how to select the right appliance to address your patient’s dental conditions
- Understand how to use home monitoring for effective therapy and co-management of patients

**CHRISTINA LAJOIE** is the Airway Project Manager for Great Lakes Dental Technologies. With over 25 years of experience, Ms. LaJoie has lectured at hundreds of events including co-lecturing with Dr. Alan Lowe, Dr. John Remmers, and Dr. Wolfgang Schmidt Nowara. She has served as an advisor to the UCSF/Stanford School of Sleep Medicine Mini-Residency Program; demonstrated techniques at workshops with Steve Carstensen and Jonathan Parker at the ADA; and served as an industry liaison for the American Academy of Dental Sleep Medicine, and the American Thoracic Society. Ms. LaJoie is a member of the visiting faculty at Spear Education and The Pankey Institute. She provides hands-on instruction at Spear workshops with Dr. Jeff Rouse. Ms. LaJoie currently is a member of the editorial advisory board for *Dental Sleep Practice* magazine.

# Join your fellow Dentists of MBDS by Participating in the *Halloween Candy Buy-Back Program!*

Halloween is just around the corner and the Montgomery Bucks Dental Society (MBDS) would like to invite you to participate in an easy, philanthropic and fun program that keeps cavity-causing candy away from our patients. To participate in the MBDS Candy Buy-Back Program, you simply offer to purchase excess

candy from your patients after Halloween for a nominal amount and then MBDS will help you donate the candy to charity. Setting up a Candy Buy-Back Program in your office is a wonderful way for your office to promote oral health, engage with your younger patients and join the MBDS in helping **Operation Gratitude**. Interested in participating? We collected these tips from past participants to make it easy for you:

## 1. Select a date and time to collect and weigh the candy at your office.

- We recommend selecting a day during the week following Halloween
- If you choose a limited time period (~2.5 hours), you can turn it into an event at the office

## 2. Decide how much you will pay for each pound of candy surrendered.

- We suggest paying each patient \$1 for every pound of treats delivered
- Make sure to set a per-person limit (perhaps five pounds)
- Provide a dental gift bag to participants and/or hold a raffle for an exciting prize

## 3. Announce the MBDS Candy Buy-Back Program to your patients!

- E-blast your patients
- Promote the program on your Facebook page and website
- Invite adults to donate the leftover candy

## 4. Create your own in-office signage to promote the event

- Check out our website for some ideas from other MBDS dentists

## 5. Day of the Event: Be Prepared!

- Make sure you have all the supplies you need: Scale to weigh the candy; Plenty of \$1 bills; Staff available to track the results; and Camera to take photos
- Box the collected candy as it's collected (...start saving your dental supply boxes now for packing!)
- Consider wearing costumes during the collection to add some fun and spirit to the event
- Memorialize the event on social media by posting pictures and also submit them to MBDS to be included in our next newsletter and on our website

## 6. Join MBDS in donating the collected candy!

- MBDS will be collecting candy amassed by our dentists. MBDS has arranged the following collection locations in Bucks and Montgomery Counties:

**Chesheim Dental Associates** - Dr. Angela Stout  
716 Bethlehem Pike, Erdenheim, PA

**Leading Dental Solutions** - Dr. David Kaffey  
2032 N. Broad Street, Lansdale, PA

**O'Day Orthodontics** - Dr. Anne O'Day  
3503 York Road, Furlong, PA

- Collections will be accepted Tuesday, November 5th through Thursday, November 7th. Please drop off between 9:00 AM and 5:00 PM
- MBDS will donate the collected candy to Operation Gratitude
- If you would prefer to donate the candy directly, dentists are encouraged to find a local Liberty United Service Organization ([www.LibertyUSO.org](http://www.LibertyUSO.org)) to drop off their collected candy

## 7. Make sure to thank your patients for their participation and announce how many pounds of candy were collected by your office and MBDS dentists for Operation Gratitude

Phoenixville. He is also an Associate Clinical Professor in the Department of Endodontics at Temple since 1990. He is Past President of Montgomery Bucks Dental Society and more recently the Pennsylvania Dental Association.

Bruce has always been an avid mountaineer. Many of you have known of his adventures throughout the years. His recent summit of Mt Everest completes the Seven Summits. He is here tonight to delight us with his most recent journey.

**MBDS is looking for members to get involved in our committees, as well as, online surveys and focus groups. It's a great way to get involved without a significant commitment of your time.**

**If interested, contact: [mbdsdr@comcast.net](mailto:mbdsdr@comcast.net) We look forward to welcoming you!**

### **Handouts & Wi-Fi for CE Courses**

Any relevant handouts for the MBDS continuing education series lectures will be posted on the MBDS Continuing Education webpage shortly before each session.

If attending a course, please check the webpage:  
**<http://www.mbds.org/Education.html>**  
and print out the handout pages.

There is also Wi-Fi available on-site so you could also bring a device and view them during the presentation if you desire.
