May Dinner and Annual Business Meeting

May 21st,
Springfield Country Club

Recently released announcer and color commentator Chris Wheeler “Wheels” of the Philadelphia Phillies will be our speaker at the May Dinner and Annual Business Meeting. A memorable evening of colorful and entertaining stories is guaranteed in Springfield, even if the Phillies have a rough night away in Miami. For more meeting and reservation information, see page 2.

Wheeler attended Marple Newtown High School and received a B.A. in journalism from Penn State University in 1967. Following graduation, he began his broadcasting career with WCAU radio in Philadelphia, where he was an airborne traffic reporter as well as a news writer and reporter. Following brief jobs in Chicago and New York, he joined the Phillies as assistant director of publicity and public relations in 1971 and began broadcasting in 1977. In 1982, he also was made director of the Phillies’ community relations department. He was the camp coordinator for Phillies Dream Week from 1983 to 1999 and ran the team’s speakers bureau from 1991 to 1997. Both he and Chris Matthews were released as Phillies broadcasters on January 8, 2014 by the network following the signing of a new television contract with NBCUniversal and Comcast SportsNet.

From the Desk of the President

As I pen my final letter as your President, I first would like to thank the Officers, Board of Governors, Committee Chairs and Committee Members for their support this past year. Some people are involved in day to day operations, others in planning and supporting special events or conferences and others are the communicators and marketers that ensure the support of our programs. There is really something for everyone who wants to get involved. To all a heartfelt thanks.

On Wednesday, May 21, 2014, Mr. Chris Wheeler of the Phillies will be addressing us at the Springfield Country Club in Springfield, PA. Chris has been with the Phillies for a very long time and he has a unique insight into the club, its history, players and coaches. The last time Chris addressed us was 20 years ago and a lot has happened since then including a World Championship. Please join us for what promises to be a very entertaining evening.

I also would like to thank everyone in Chester and Delaware Counties for their support of PADPAC. The PDA is your advocate and on a recent survey advocacy was listed as the number one concern among dentists. In the last two years, PDA, working side by side with our legislature, has been successfully championing a number of issues, including: banning insurance companies from setting artificial allowances on non-covered services, requiring medical insurance carriers to pay for general anesthesia for special needs patients and children age 7 years and younger and restoration of funding for the Donated Dental Services program. The PDA’s current focus is a dual signature bill protecting the dentist from having a patient unilaterally cash an insurance reimbursement check. They will continue to protect our patients and ourselves as long as we can give them the financial resources to do so.

Continued on Page 2
Executive Board Meeting

DATE: Wednesday, May 7, 2014
Dinner and Meeting at 6:30 PM

PLACE: Rose Tree Inn, 1243 N. Providence Rd., Media

RSVP: E-mail Dr. Linda Himmelberger, 610-688-2211 or himmelberger@msn.com by April 30th with your meal choice of NY Strip Steak, Chicken Marsala or Pistachio Salmon

Awards Dinner and Annual Meeting

DATE: Wednesday, May 21
Social and Cash Bar at 6:00 PM,
Dinner and Presentation at 6:30 PM

PLACE: Springfield CC, 400 W. Sproul Rd, Springfield

Deadline to Reserve Space, Wednesday, May 14.

To register, contact Dr. Jamie Wolitarsky, drjamsky@aol.com 610-286-5841 with your choice of Chicken Francaise or Baked Tilapia with Lemon Butter. Cost is $40 per person. Payment can be made in advance or at the door by cash or check. Kindly give 48 hours notice of cancellation should you request a refund. Thank you.

Continued from Page 1

Lastly, on May 21, 2014, Dr. Jamie Wolitarsky will be inducted as your new President. I wish Jamie the best of luck for a successful Presidency, but I know he has surrounded himself with a very loyal, hard-working and conscientious group of dentists.

Respectfully submitted,
Richard J. Clark III D.D.S.

GKAS Thanks…

We would like to thank, the dentists, hygienists, assistants, and staff members who donated their expertise and dental supplies to provide dental care and education for indigent children on Monday, April 28th at Dr. Barry Cohen’s office in Drexel Hill. The list of volunteer dentists includes Haddy Alrez, Liliana Angelova, Tami Brady, Dick Clark, Barry Cohen, Theresa Devine, Marianna Evans, Claire Field, Linda Himmelberger, and Bernie Logan.

Drs. Behnam; Cimino; Grzybicki; Gustainis, Disque, Trentacosti, & Kazemi; Harshaw; Maser; Pfeiffer; Renneisen; Robbins; Scharlock & Russo; and Shipon graciously supported our efforts with their kind gifts!

Thanks to your efforts our GKAS Program continues to provide dental care and education to children who would otherwise not receive this integral component of their health and well-being.

With gratitude,

Linda Himmelberger, D.D.S.

Bernadette A. Logan, D.D.S.

MOM-n-PA Dental Missions

“Dentistry with a HEART”

The second MOM-n-PA event will take place this year at Ag Hall in the Allentown Fair Grounds complex on Friday, September 12 and Saturday, September 13. Last year’s inaugural event took place in Philadelphia at the end of May and provided FREE dental care to over 1800 patients. Care was provided by volunteer dentists, hygienists, dental assistants, and lab technicians with the help of office staff, lay people and medical professionals. There were over 1000 volunteers for this event and $850,000 worth of dental care was provided. The net cost of the program was $131,000 so for every dollar spent we generated $.49 in free care.

There is a tremendous need for this type of program in the Lehigh Valley. As co-director of the residency program at Lehigh Valley Health Network, I can attest that we continually have to turn away patients for care (with the exception of severe emergencies) on a daily basis. Many people have no resources for dental care even though I know many of my colleagues help in ways that do not always get recognized. The demand is overwhelming and we can help to alleviate some of the community’s need during this mission.

You and your staff, spouses, adult children and friends can make a difference. We need dentists to provide care (General Dentists, Oral Surgeons, Endodontists, Prosthodontists, and Pediatric Dentists especially). We need hygienists and dental assistants, EFDAs and Lab Techs. We need people to help with administrative duties, checking in patients, “runners” on the clinic floor, patient ambassadors, and people to help with sterilization and radiographs and those who can administer local anesthetics. We need people to help with providing food and beverages for our volunteers and snacks for patients. Patients receive oral health education and kits upon discharge so volunteers are needed for that as well. There are many opportunities for people to serve.

Volunteers, especially dental providers, are asked to give 5 hours of service each day. The morning shift generally starts at 7:00 AM until noon, and the afternoon shift is noon until 5:00 PM.

We will seek patients from the local community but last year there were folks from NJ, Maryland and Delaware who came to the clinic. Anyone needing care is treated regardless of income, insurance or financial status. We will work with social agencies, church groups and medical clinics to advertise the program. Medical screening is done to assure patients are medically cleared for treatment.

Much more information can be found at www.mom-n-pa.com. Registration for volunteers of all sorts opens on June 1. If you do not have time to donate your talents, please consider a monetary donation through the website. ANY amount will help in funding this cause – our costs this year will be over $170,000. If you have any questions please feel free to contact me via email at cijdmd@ptd.net.

Thank you for taking the time to read this and for your anticipated help with this important event. We can make a difference together in the oral health needs of our community and this is a wonderful opportunity to do so.

Charlie Incalcaterra

Community Chair,
MOM-n-PA in Allentown
Glenn Dupont DDS – St Petersburg, FL, “Solving the Most Difficult Cases: A Step-by-Step Process” After graduating from Emory University School of Dentistry in 1979, Dr. Dupont joined the practice of Dr. Peter Dawson. He is currently the Director of Faculty at the Dawson Academy. Dr. Dupont will share a process that he has been using successfully to solve the most difficult problems that patients present with. He has accumulated some extremely challenging cases over the last 34 years. Anterior open bites, class three problems, anterior cross bites, posterior cross bites, deep over bites, bulimia and anterior wear are a few of the cases that he will address. A step-by-step process will be presented in a series of checklists that the attending dentist can immediately apply to help solve problems with their patients. Learning objectives: Review key principles and concepts of esthetics and function; Apply the four treatment options to solve functional issues; Utilize the Functional-esthetic 2-D checklist; Show the use of the 10 Step 3-D checklist; Discuss checklists for lab communication to ensure predictability; Utilize a specific process to sequence all types of cases for efficiency and productivity; Apply these checklist and principles to a number of different cases. This course is co-sponsored by an educational grant from Dodd Dental Lab, Dentsply and Hayes Handpiece Repair.

Thursday, May 8, 2014

The Dental Society of Chester County and Delaware County, PA proudly presents

DKU Continuing Dental Education

Springfield Country Club, Delaware County

All meetings will be held at the Springfield Country Club on Route 320, Springfield, Delaware County, PA, except for the Bonus Courses held at the Valley Forge Radisson Hotel. Registration for all courses 8:15 AM. Lecture 9:00 AM – 4:30 PM. Continental breakfast and lunch included for all DKU courses.

Pennsylvania Dental Association Announces Winners of Annual Statewide Third-Grade Student Poster Contest

Third-grader Hannah Hulton of Octorara Elementary in Chester County will be presented a $500 prize for winning first place in the Pennsylvania Dental Association’s (PDA) 2014 National Children’s Dental Health Month (NCDHM) statewide poster contest.

Hannah’s colorful poster shared a slogan that simply encourages taking control of your oral health: "Be the Boss, Brush and Floss." Below the message was a happy tooth being hugged by a string of floss administered by a human-like floss dispenser and a toothbrush with toothbrush arms and legs. Hannah will be presented with her framed winning poster and $500 prize by a PDA member dentist at an upcoming school awards assembly. Octorara Elementary and Hannah’s teacher, Miss Jenny Lasak, also will receive $250 each for participating in PDA’s contest.

Christine Robinson has been the certified school dental hygienist at Octorara Area School District for over 20 years and has presented and participated in the NCDHM program since its inception. She has enjoyed this contest because of the creativity and learning experience that it provides for the students.

“The enthusiasm of the third-grade students developing their own dental health poster creates a memory that lasts for many years. Some of the high school students in the district still joyfully recall the posters they made in third grade,” Robinson said.

The winning poster was selected from more than 150 clever, well-designed entries submitted to the PDA Central Office for judging. The contest was open to third-grade students in any Pennsylvania public, private or charter school. More than 1,500 schools were contacted for participation.
We continue our 106th year of camaraderie and education as one of the oldest dental societies in the region!

Upcoming Events

Fall All Day Program: Friday, September 20, 2013
The Buck Hotel, Feasterville, PA
“Staging Comprehensive Treatment”

John Nosti D.M.D. practices full time with an emphasis on functional cosmetics, full mouth rehabilitation, and TMD dysfunction. His down to earth approach and ability to demystify occlusion has earned him distinction among his peers. In his lecture, participants will learn how to stage comprehensive treatment to meet their patient’s budgetary limitations while providing functional and stable dentistry.

Fall Dine Around: Wednesday, November 6, 2013
Toscana 52, Feasterville, PA
“The Five W’s of Xylitol”

Lisa Stillman, RDH, BS is the Northeast Xylitol Educator. She teaches dental health professionals the general and dental health benefits of quality xylitol products with presentations and literature to assist dental offices to incorporate xylitol into the dental hygiene protocol. Lisa has practiced dental hygiene in Maryland and Virginia and currently has a position specializing in Periodontics. The Five W’s of xylitol: the Who, What, When, Where, and Why will become clear upon completion of this course. In addition, attendees will gain a greater appreciation for the many preventive and therapeutic benefits of xylitol.

Spring Dine Around: Wednesday, March 12, 2014
The Refinery at Sugarhouse Casino, Philadelphia, PA
“The Many Faces of Facial Pain”

Alan Stiles, D.M.D. is an Instructor in the Department of Oral and Maxillofacial Surgery at Thomas Jefferson University. His clinical practice is limited to the management of head, neck, and facial pain. Following his completion of his DMD at Temple University, he completed a residency in Orofacial Pain and Dysfunction at UCLA School of Medicine and Dentistry. He then completed his fellowship in headache at the Jefferson Headache Center in the department of neurology at Thomas Jefferson University in Philadelphia.

CPR: Friday, April 25, 2014
The Buck Hotel, Feasterville, PA

Spring All Day Program: Friday, May 9th, 2014
The Buck Hotel, Feasterville, PA
“Productivity: It’s not by chance”

Bruce Baird, D.D.S.: The business of dentistry is changing as rapidly as new technology is changing how we treat patients. To succeed in today’s challenging economic environment, we have to re-evaluate our current processes and symptoms. Learn several key strategies that will effectively change your thinking on the business of dentistry, challenge many of the beliefs that prevent practices from realizing their full potential, and offer solutions to your most challenging business issues. Dr. Baird, is a preeminent cosmetic dentist in the Dallas / Fort Worth area at Granbury Dental Center. Dr. Baird specializes in cosmetic makeovers, full mouth rehabilitation, and dental implants.

Annual Golf Outing: June, 2014
Philmont Country Club

the BULLETIN MAY 2014
PDA’s Day on the Hill
June 3, 2014

Help shape the future of the dental profession or it will be shaped for you!

Talk with Pennsylvania’s representatives and senators about the issues that will impact you as the individual held liable for the health and safety of your patients.

Pre-registration Deadline: May 13
Register Now! www.padental.org
Due to time constraints with scheduling appointments, reserving buses, etc., PDA will no longer accept late registrations. No exceptions.

Registration will be held at the Radisson Hotel in Camp Hill
Registration, along with pick-up and drop off for the Capitol, will take place at the Radisson Hotel in Camp Hill. Registration begins at 8:30 a.m. and the lobbyists will begin speaking promptly at 8:50 a.m. We will begin boarding buses at 9:15 a.m.

Legislative Assignments
PDA will assign you to a team of four or five members, spouses and dental students and schedule legislative appointments in advance. Your team is responsible for meeting with key leaders and committee members. We also will make every effort to assign your team to visit your own legislators. If your legislators are not part of your team’s assignments, please feel free to break away from your team to stop by their offices on your own and rejoin your team at another time. All appointments must take place between 10:30 a.m. and 1:00 p.m.

Due to scheduling changes with legislators, PDA will email your team assignment and legislative appointment schedule by close of business on Monday, June 2.

Thanks to your ongoing support, PDA has had many legislative victories, such as:
- **PASSING** a state budget that included funding for the Donated Dental Services program.
- **PASSING** legislation prohibiting insurers from capping non-covered dental services.
- **PASSING** legislation requiring insurers to cover general anesthesia costs when treating young children and patients with special needs.
  ...and MANY MORE
Minutes Highlights
BOARD OF GOVERNORS MEETING
March 12, 2014 – Generations Restaurant, Media

For a full version of the minutes, please contact tsbradydmd@verizon.net.

The PDAIS policy has been paid to bond the treasurer for next 3 years. We will be receiving a refund from Dr. Weber’s president elect’s campaign as there were unused funds after the campaign.

Dr. Clark’s father passed away this morning and he is currently out of town. Dr. Wolitarsky chaired the board meeting in Dr. Clark’s absence.

From 1/4/2014 to 3/7/2014 the answering service received 33 calls. 3 calls for dental questions, 1 call for DKU, 3 calls were looking for a dentist, 23 were sales calls, and 3 calls were hang ups.

Affordable Care Act documents were sent to the board via email with the meeting reports. Members may want to go to the Medicare Learning Network (MLN Connect) for a web link to verify patient coverage for patients that come to your office with insurance under the ACA.

The next Mom-N-Pa event will be held in Allentown on September 12 and 13, 2014.

A PCOH Membership Meeting was held on January 17 in Harrisburg. The purpose of the meeting was to further explore policy agenda and gather information to create an action plan.

The discussion began with reinforcing the need for continued gathering of data and information, and understanding the statewide need of dentists per county and also the number of dentists that accept Medicaid payments. This opened the floor up to discussion of how we can gain better access to care for people by encouraging dentists and hygienists to practice throughout the state and increase provider acceptance of Medicaid. The next meeting being held in April will discuss the next steps forward to accomplish these goals.

The Connect the Dots Event was held on March 6 at the VFDC. Over 85 people attended and learned the knee to knee approach to treat age one dental patients. This pilot project workshop was supported by a grant from the Dental Trade Alliance Foundation.

DKU is doing business as usual and expects another good year. There are two courses left, April, May, both have good registration. With the funds remaining in the account costs will be covered for these classes and still have money to transfer to the Society’s account at the May meeting. Due to Dr. Cohen’s travel and other commitments there are no Balance Sheet and P/L reports for this report.

Volunteer Dentistry (HB 1056) - HB 1056 passed The General Assembly in February. The legislation amends the Dental Law and will allow the State Board to issue temporary volunteer licenses to dentists in good standing in other states or territories, so that they may volunteer at charitable events or provide care during emergencies in Pennsylvania. The State Board has the authority to issue one 30-day temporary volunteer license per applicant, or up to three 10-day temporary volunteer licenses per applicant per year.

Assignment of Benefits (SB 520) - SB 520 would require all insurers to assign benefits directly to the provider, regardless of whether he/she is a participating provider. In October, PDA was asked to accept an amendment to the legislation, but after consideration, the PDA Board of Trustees decided not to support the amendment because it had the potential to make it more difficult for dentists to obtain payment upfront from patients. SB 520 is currently stalled in the Senate Banking and Insurance Committee. This week PDA participated in meetings with legislators to discuss SB 520.

Loan Forgiveness for Dentists (HB 542) - HB 542 was introduced and would establish the Loan Forgiveness for Dentists Program with the Pennsylvania Higher Education Assistance Agency (PHEAA) in order to increase the number of recent graduates practicing in Pennsylvania. HB 542 was assigned to the House Education Committee but has not yet received any consideration.

Day on the Hill is scheduled for Tuesday, June 3, 2014.

Dr. Himmelberger was inducted as Second District President on March 6, 2014 during the VFDC.

The Iron Pigs game is scheduled for Friday, June 6, 2014. This is a great event for the whole family.

PDA Trustee Report: At the 2013 PDA Annual Session, the House of Delegates (HOD) passed a resolution from the Reference Committee on Organizational Affairs (RCOA) asking the By-laws Committee of the PDA Board of Trustees (BOT) to draw up a new set of By-Laws for the PDA. These new revisions as charged by the HOD to the By-laws Committee are to have a new PDA Board consisting of five regional trustees which is a decrease of five from the current number of ten Trustees. There are to be no changes to the existing ten Districts or their structure. The HOD is to be eliminated and replaced by an Annual Meeting of the Membership. A Council of District Presidents is to be formed which will be a new means of conveying District concerns to the PDA Board of Trustees.

At the January 25, 2014 meeting of the BOT, the By-laws Committee presented a new set of PDA By-laws which will be in the Annual Session workbook for discussion, debate and vote at the 2014 PDA Annual Session in Hershey on April 25 and 26. The PDA BOT didn’t vote on the changes because ownership of the By-laws belongs to the HOD. Any changes to our current By-laws requires a 2/3 vote of the delegates present at Annual Session.
Our PDA Speaker of the House Peter Korch clarified how the By-laws changes will be handled at this year’s Annual Session. The RCOA will hear testimony from any member on the proposed By-laws changes. You don’t need to be a Delegate or Alternate to speak. The RCOA will then adjourn and consider the testimony presented. The RCOA can make changes to the proposed By-laws or possibly recommend them not by adopted. The RCOA will then make their report to the HOD. While before the HOD for discussion, amendments can be made with a simple majority vote. All final By-laws changes will require a 2/3 majority vote. Any By-laws changes approved will take effect immediately. The election of ADA Delegates and Alternates will stay the same this year because the election will have taken place before any potential By-laws change.

Dr. Scott Aldinger, the current chair of the Governance Task Force (GTF), made a preliminary report to the BOT that highlighted the proposed ideas for implementation of governance changes if the new By-laws are approved or amended. The GTF surveyed several other states to learn the format of their annual meetings. While no final decision has been made, Dr. Aldinger suggested the Annual Meeting of the Membership should be several days, rotated around the state and have mainly continuing education and social events. The meeting may have a three hour Annual Business Meeting where presentations can be made by PDA officers there will be a Town Hall type forum for members to voice their concerns. Procedures for election of PDA officers and ADA Delegates and Alternates still need to be discussed. If you have any questions or concerns about these proposed changes, please contact one of our members serving as a delegate.

At the January PDA BOT meeting the Board by a vote of 8-2 (Dr. Heier voted no) approved an increase in Active Life members’ dues from 50% to 75% of full dues. This increase places the PDA in line with the ADA. The Board felt this increase was needed to stabilize future loss of income due to the aging of our membership and loss of membership.

PDA Past-president Dr. Bernie Dishler reported that the Pennsylvania Bernie Dishler hired a part-time executive director and is trying to improve Medicaid credentialing. There is an effort being made to re-establish a high level dentist position in the PA Department of Health. There has not been a dental director for two years.

Dr. Heier had an agenda item on the Dues Waiver Policy for doctors experiencing hardships. Currently Second District has the District Secretary make the subjective decision and no District has any set policy. The consensus was that people within a District have the best idea of a member’s hardship. Several Districts leave the decision up to a Local Society Secretary who conveys his/her opinion to the District Secretary. Several Board members said that it takes a loss of pride by a member to make a dues waiver request and their District almost automatically approves the requests. Other than for a long term medical disability, most dues waivers should be for one year. The application form does state whether the request is for an additional year and more scrutiny should be given to a renewal application. The item of a dues waiver policy was forwarded to and discussed at the last PDA Membership Committee.

The SBOD previously passed a resolution to double civil penalties. This increase is before regulatory agencies. A proposal to add practice management as an approved course category for licensure requirement was defeated. In the future the SBOD may consider approving practice management, pain management and ethics courses if the hourly course requirement for license renewal is increased. The SBOD is reviewing the regulations for anesthesia office inspections and is hearing input from oral surgeons and pediatric dentists. The NERB is now part of the ADEX exam which is accepted by 44 states for licensure.

The following motion was unanimously passed: That a survey be developed and distributed to DKU attendees to ascertain attendee’s wants/needs relative to local dental events, including, but not limited to location of general meetings, and types of programs desired. The data will be forwarded to the ad hoc committee for analysis. It was agreed that a board member would be handing out the surveys at a future DKU event, and the responsibility would not be Dr. Cohen’s.

The following items will be placed on the May agenda; inviting committee members to board of governors meetings, and ways to increase the number of members serving on committees.

Motion passed unanimously to donate up to $100 to the designated charity as appropriate in memory of Dr. Clark’s father. It was later determined the family requested donations to be made to Heart of Virginia Council of the Boy Scouts.

The nominating report was presented. The nominating committee was unable to fill the position of President Elect. The board nominated Dr. Dale Scanlon to the position of PE and he accepted and was approved by the board. The nominating report with Dr. Scanlon added as President Elect and Dr. Don Gordon substituted as Governor was unanimously passed.

The following resolution was sent out electronically after the meeting and unanimously approved: that The Dental Society of Chester County and Delaware County send a gift to Dr. Charlie Weber after next week’s surgery, up to $100 in value.

The following motion was passed unanimously: That a survey be
